

Help Red Make Her Garden

Materials: glue, paper plate, popsicle stick

Tools: scissors, colors

Step One Color and cut out the hen and her tools.

Step Two Design and color a garden on your paper plate. Is she growing vegetables, flowers or both? Glue some of her tools on the ground where she can reach them.

Step Three Create a puppet by gluing the hen to the end of a popsicle stick.

Step Four Cut a slit into the paper plate and slide the popsicle stick through.

Now you have created a wonderful garden for Red to tend.

Fun tip: explore creating different gardens.
